

Mission

The mission of the Alliance is to

- Create awareness of health needs
- Increase access to health care
- Eliminate health disparities

Goals

The goals of the Alliance are to

- Develop a community based case management program. This program will advocate access to health care for patients by helping to navigate complex health care systems and will also provide health education, access to interpretation and other needed services.
- Promote culturally proficient health care.
- Provide shared training and networking opportunities among providers
- Create a shared health information capacity between members of the Alliance. An information-sharing system will help efficient, quality health care and eliminate duplication of services.

Community-Wide Benefits

There are many benefits of a collaborative approach to serving underinsured, including immigrants.

Benefits for underinsured include

- Better access to care, including preventive care
- Better health outcomes for patients through health education

Benefits for providers include

- More appropriate use of health services by patients
- More unified and efficient way of serving low-income patients
- More cost-effective service delivery for providers

Membership

Founding members of the Alliance include

- Arapahoe/Douglas Mental Health Network
- Doctors Care

- Sheridan Clinic
- Asian Pacific Development Center
- Latino Outreach, ADA
- Office of Health Disparities, CDPHE
- CCMU
- Centura Health, Littleton Adventist Hospital
- Adventist Community Services, L.I.F.T.
- Inter-Faith Community Services
- Bethany EFC
- Mission Hills Community Church
- City of Littleton
- Planned Parenthood of Rockies
- North Littleton Promise
- Alternatives Pregnancy Center
- Kids and Family Dentistry
- Bemis Public Library
- Littleton Immigrant Integration Initiative
- Colorado Consumers Health Initiative
- Metro Community Providers Network
- The Village Preschool
- Littleton Public Schools, ESL Program
- Sage Approach
- Arapahoe Community College
- Kids in Need of Dentistry
- Littleton Housing Authority
- Tri-County Health Department

The Alliance grew out of the work of the Littleton Immigrant Integration Initiative's Health and Wellness Program, which brought together a wide range of physical health, mental health and dental health providers for four years (2006-2009). The Alliance was formed by health care providers, service agencies and consumers who wanted to continue and expand that program.
